WHOLESALE PRICE LIST 1958

Always Growing

TO THE TRADE:

For many years we have specialized in growing coniferous evergreens. We shall continue to grow with all the years of experience at our command. We are offering to you in this catalogue a fine selection of field grown specimen evergreens plus an ever-increasing supply of container grown stock.

The reputation we have had in the growing of field stock, we are sure, will be maintained in the growing of container stock. Our experience in field grown nursery stock has shown us that steady natural growing makes for a strong self-sustaining, quick-to-adaptability plants. We shall pursue the same method in the growing of container grown plants.

Our modern method of mist propagation enables us to keep ourselves supplied with lining out stock that will insure a continuous supply at all times and in any quantity. We have the stock plants from which this supply is insured.

The demand for hard-to-get items will be with us. We are in a position to grow these items on contract in any desired quantities—be it in liners, gallons, fives, or field stock.

We invite you to come and visit us and see for yourself just what we are talking about. If you happen to be a golfer, be sure and bring your clubs along as we have a fine golf course next door where you can combine pleasure with business.

Horticulturally yours,
PETER MORDIGAN
